**PROJECT LAUNCH: Norton Audit's Web site**

GraySail has released a new Web site for Norton Audits, a company focused on advancing clinical research through strategic systems development and implementation for defining and driving performance excellence. The site, which can be found at <http://www.nortonaudits.com>, is backed by the feature-rich content management system OpenCms (<http://www.opencms.org>), and features an interactive Ask the Expert section.

Norton Audits offers training, auditing, consulting, publications, and monitoring services to pharmaceutical and medical device clinical research trial operators. The company is owned and operated by Jeff & Tamera Smith, and is based out of Lexington, South Carolina.

GraySail LLC is a Web and data services company based on Columbia, South Carolina. Specializing in the area of complex data problems, GraySail provides a variety of business/technical consulting and development services. Along with solutions related to data architecture and analysis GraySail also provides marketing media services such as graphic design, web design, logo development, and flash animation design.

For additional information, please contact Leslie Shearer, Marketing Director for GraySail LLC by phone or e-mail at 803.227.0787, or [leslie@graysail.com](mailto:leslie@graysail.com).
